Subject: FW: Process question for PA clearance of academic paper

Tanya,

Forwarding a query to you per Lisa Miller's out of office.

I am an INR analyst working on an draft academic paper on Somalia.

I have a "process question" on clearing such papers. My supervisor in INR has reviewed/cleared the draft. Do I now send it to PA Clearances, or do I first need to clear it with the regional/factional bureaus? (in this case, that would likely be AF and S/CT).

I would appreciate your guidance.

Regards,

Subject: Process question for PA clearance of academic paper

Ms. Miller,

I received your name from Steve Weigert in INR/AF. I am an INR analyst working on an draft academic publication on Somalia.

I have a "process question" on clearing such papers. My supervisor in INR has reviewed/cleared the draft. Do I now send it to PA Clearances, or do I first need to clear it with the regional/factional bureaus? (in this case, that would likely be AF and S/CT).

As this is my first time summiting a draft for PA "pre-publication" clearance, I would appreciate your guidance. I just want to make sure I follow the proper procedure.

Regards and many thanks, ...

've read through your manuscript and didn't see any information that seemed inherently classified or that drew	
substantially upon reporting you would have access to as a member of ITA. I know that the draft will have to go through	ieh:
the vetting process with PA prior to submission to the Digest of Middle East Studies; please keep me posted on your

Attached for PA clearance is an article regarding the Provincial Reconstruction Team program in Iraq. The article contains the standard disclaimer language on the first page.

I am a State Department FS-01 currently on a detail assignment to the non-governmental organization The Association for Diplomatic Studies and Training (ADST). In my current assignment, the United States Institute of Peace invited me to write the attached article which USIP is interested in publishing in their "Special Report" series.

Dear PA Clearances,	
Can I get your final clearance on this outstanding clearance request by COB today? L and S/P cleared it a couple months ago. I have emailed David Bamein IO this morning to get his final clearance. Since I now work at the NSS, I need to wrap up the State clearance process, so I can turn to clearing it through the White House.	
Thanks.

Dear PA Clearances,	
I am submitting the attached draft Commentary written in my personal capacity for clearance. It has been tentatively accepted for publication in the American Journal of International Law. L has cleared it for publication in my personal capacity.	B5
I wrote the piece while on an unpaid leave from the Department, during which time I was a part-time visiting scholar at Georgetown Law. The opportunity to publish grew out of my time and personal contacts at Georgetown. The piece focuses on Libya in the context of international organization theory, not US foreign policy. My supervisor at the time I wrote this, S/P Director Juke Sullivan, supported my writing this in my personal capacity and agreed to let me take an unpaid leave to complete the writing on my personal time.

•	If the statements in the piece "are likely to be attributed to the U.S. Government notwithstanding the employee's use of a disclaimer" and that "attribution of the employee's views to the U.S. Government is likely to impair demonstrably the foreign affairs mission of State" (for example, an A/S cannot reasonably have the presumption of writing something in his or her own personal capacity).
	I am sending you the paper entitled, "Korean Futures: Challenges to U.S. Diplomacy of North Korean Regime Collapse" co-authored by employee (scc attachment) to make sure you are aware of it, and to get your input on any of the three conditions listed above.
	It is important to keep in mind that the "clearance" we provide is in no way an endorsement or "OK" of what has been written - we are simply saying that we have reviewed the article and that it is not in violation of the FAM.
	I would appreciate hearing from you no later than COB Wednesday, June 29.

	Clearance for and "Korean Futures: Challenges to U.S. Diplomacy of North Korean Regime Collapse." (National Defense University)
	paper seeks to anticipate the effects of the collapse of the North Korean regime, examining possible responses to such an event by the United States, Japan, China, South Korea, and Russia, and considering the possibility of a resulting Sino-American confrontation. Such contingency planning is inherently controversial, but given the author's use of a disclaimer, her position at the Department of State, and the fact that this study is being conducted at the National Defense University, the Department of State should be able to distance itself from this study without difficulty, and I thereby clear it.

Subject: guidance request

Greetings,

This request relates to a paper I've been invited to submit to a publication for the National Council of University Research Administrators.

The paper is attached and is undergoing review for content in a sister bureau (S/GPI).

Given that it will be going into a print publication, I thought it appropriate to ask your guidance on whether PA needs to clear on this paper.

I am an IEEE Engineering and Diplomacy Fellow serving in the S&T Adviser's Office in 2011; the paper will be attributed to me as such rather than to the State Department.

Lappreciate your guidance.

This project is not affiliated with his work in ITA and will be undertaken on his own time;
however, per the FAM, both DS and PA Bureau clearance is required for him to participate
Following is a description of the GLP project from its own private sector Web site:
We are seeking country experts - who might be graduate students, young scholars, or journalists - to fill out the web-based survey instrument for their country of expertise. We will

The job requires an estimate of 30-50 hours of work depending on the size of the country's political leadership. Each country expert can only undertake work related to his/her country of expertise.
has chosen to forgo the offered honorarium because of potential conflict of interest under the USG Code of Ethics for employees, as recommended by the L/EMP/Ethics office.
DS/DSS, L/M/DS, DS/PA, and DSS/TIA have all cleared the request to pursue the project with the caveat that, if approved, they want to see and clear the article before it is published.

I will be simply identified as the individual who inputted the Libya information. There will be NO/NO opinion associated with this information. This is a project to create a data set for other scholars to use.

essay, and it was submitted along with the other essays for peer review with Oxford University Press back in May 2010. It languished with OUP for many months, and two weeks ago we learned that it had been accepted.

Since I am now a serving official; I want to verify whether it is necessary to seek departmental review/clearance for this essay which I completed and submitted prior to my employment here, and which in any case is a shorter version of something I published three years ago—that too, based on research I conducted nearly a decade ago. The original article is here (click to see original). Of course, I am happy to submit the abridgment if it is necessary. Finally, I will derive no financial benefit from this activity, needless to say.

The volume editors do need some kind of answer from me. Can anyone help?

Thank you very much for guidance on this.

Best regards,

REVIEW AUTHORITY: Barbara Nielsen,

Senior Reviewer

Good morning,

I am a first-year Presidential Management Fellow here in the Climate Change Office at State. I have written an op-ed (historic analysis of the 8ush administration's political and economic policies) for publication in the upcoming G8 Summit Magazine <u>strictly in a personal capacity</u>. There will be no mention at all in the magazine of my affiliation with the State Dept, nor do I touch upon any topics that I currently work on.

Please let me know as soon as possible whether it is ok to publish this article as it stands, as I'd like to give my editor final clearance by late today or early this week at the latest. Many thanks in advance!

Subject: FW: CLEARANCE REQUESTEO: Article for Submission

Elizabeth: Abigail Morales clears for PA with an edit to the disclaimer. PA recommends that the author delete the name of his contracting company, so as not to offer it free publicity. If the author disagrees, PA will need to run this by our L contact.

UNCLASSIFIED U.S. Department of State Case No. F-2D16-01568 Doc No. CD6310015 Date: 06/12/2D17

Also, you stated that the author's own office (S/CRS in this case) has cleared, although there is no clearance page. The disclaimer was missing the negative particle "not," which is crucial in any disclaimer.

I have been a regular participant in this event for the past few years. Though I have not be officially representing INR, my participation is possible because I am INR's senior military analyst and an expert on the Chinese military. This year I took the time to write down some specific observations regarding the topics we had covered and shared them with the senior NBR coordinator, Dr. Roy Kamphausen. He has asked for permission to include some of my observations in either the foreword or the conclusion of this year's formal conference publication, citing me as the source. All of my observations were drawn from the unclassified presentations and roundtable exchanges and are, themselves, unclassified. However, given that any citation would identify me as a State/INR analyst, we thought it would be wise to run them by you first. I am therefore including a copy of the document for your review.

Given that I have not done this before, I am not sure how long such a review might take or what other information you might require. I would appreciate any insights you can share on those questions.
